Java Full Stack Developer with hands-on experience gained through internships, academic projects, and professional training. Skilled in Java, Spring Boot, React.js, MySQL, REST APIs, HTML, CSS, JavaScript, Git, and Agile development. Passionate about building scalable web applications and continuously improving backend and frontend development skills.

WORK EXPERIENCE

Java Full Stack Developer

Jul 2026

INFOSYS SPRINGBOARD | Remote

Java Full Stack Trainee | Infosys Springboard (Present)

- Developing responsive web applications using Java, Spring Boot, React, MySQL, HTML, CSS, and JavaScript.
- Participating in sprint planning activities, task execution, and collaborative development while following Agile methodologies.

Java Full Stack Developer

May 2026 – Jul 2026

DATAVALLEY | Remote

Java Full Stack Developer Intern | Data Valley (Remote)

- Developed responsive and scalable web applications using Java, Spring Boot, HTML, CSS, JavaScript, and MySQL.
- Enhanced user experience by creating responsive interfaces and integrating frontend components with backend REST APIs.

SKILLS

Java, SQL, JavaScript, Spring Boot, React, Git, RESTful APIs, HTML/CSS, Problem Solving, Agile Methodologies

EDUCATION

JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY

Sep 2023 – Expected Apr 2027

COMPUTER SCIENCE AND ENGINEERING BACHELOR OF TECHNOLOGY

- Strong academic foundation in Java, Object-Oriented Programming, Data Structures, Database Management Systems, and Software Engineering principles.

PROJECTS

Smart Expense Tracker

Jul 2025 – Jan 2026

Designed and developed a full-stack expense tracking application with secure authentication, expense management, budget tracking, REST APIs, and responsive dashboards using Java, Spring Boot, React.js, and MySQL.

Student Project Collaboration Portal

Jan 2026 – Jun 2026

Built a full-stack student collaboration platform that streamlined team formation, project management, and task tracking through secure authentication, REST APIs, and responsive web interfaces using Java, Spring Boot, React.js, and MySQL.

MediQueue

Jul 2026

Developed a full-stack hospital management system enabling online appointment booking, real-time queue tracking, and secure role-based access using Java, Spring Boot, React.js, MySQL, REST APIs, JWT, and WebSockets.
